SCOTNET
SOLUTIONS

Introduction

With over **50 years** of experience in manufacturing and distributing Hand Twine, Machine Twine, and Elasticated Machine Twine, **SCOTNET SOLUTIONS** has an unparalleled understanding of production requirements across the industry.

Our twine ranges are meticulously developed in collaboration with our customers, ensuring each product meets the highest standards of performance, durability, and efficiency. Whether you're looking for strength, flexibility, or precision, our solutions are designed to enhance your production process.

By combining decades of hands-on expertise with cutting-edge manufacturing technology, we deliver high-quality elastic netting and twine with exceptional accuracy and reliability. Every product is crafted to optimise workflow, reduce waste, and maintain consistency—key factors for any modern processor.

At **SCOTNET SOLUTIONS**, we don't just meet industry standards—we **set them**. Our unique Scotnet Quality System operates to our exclusive SAFE-T standard, ensuring rigorous quality control from sourcing to final production. Whether you're a small independent butcher or a large-scale processor, our commitment to innovation and excellence means we have the right solution for you.

Discover how **SCOTNET SOLUTIONS** can support your business with superior twine and netting solutions tailored to your needs.

OUR VALUES

Heritage – 100 Years of Trust & Expertise

Built on a century of experience, Scobies Direct has been a trusted partner to the food industry for generations. We understand the craft, the tradition, and the dedication it takes to deliver excellence. Our history is our foundation, but our commitment is to the future—continuing to serve with the same reliability and expertise that has defined us for over 100 years.

Quality – Premium Products, Exceptional Service

Quality is at the heart of everything we do. From sourcing the finest ingredients to delivering precision-cut materials, we set the highest standards to ensure our customers get the best. Whether it's premium packaging, expertly blended seasonings, or industry-leading supplies, our commitment to quality means you can always count on Scobies Direct.

Innovation – Evolving to Meet Tomorrow's Needs

The food industry is constantly changing, and we evolve with it. We embrace new trends, modern solutions, and smarter ways to support our customers. From developing new sauces and seasonings to enhance flavour and functionality, to innovative product labelling that improves compliance and visibility, we are committed to staying ahead—so you can too.

PRODUCT OVERVIEW

Scobie & Junor's high-strength, food-safe processing threads are ideal for securing meats during processing and cooking. Designed for durability, they withstand heat and tension without breaking, ensuring a secure hold for roasts, joints, and speciality meats. Available in various thicknesses and materials, our threads provide flexibility to suit different production needs.

Blue Plastic Core

Food grade plastic core, no cardboard to absorb moisture or bacteria.

Individual Batch Numbers

Each roll has a batch number for full traceability.

BRC Accredited

Made in our UK AA grade BRC accredited plant, audited by SAI GLOBAL, a must for the food industry.

Smoothflow™

We make the twine using a special technique to give smooth dispensing from the cone every time.

Balanced Threads

During manufacture, we balance the threads, which eliminates twisting and knotting.

No Breaks

We guarantee that there is no breaks in our twine, one continuous length with no knots, for less down-time.

Cone Sizes

We manufacture our twine to the industry standard. We can also make bobbins in any size up to 2kg's.

Easy To Use

Our Machine Twine and Elastic Machine Twine load directly on to the cartridges of most stringing machines.

Tech Specs

Fully compliant with: The Plastic Materials and Articles in Contact with Food Regulations 2006 and amendments and revisions, also the UK Essential Packaging Requirements.

Roast Stable

All of our twine, even the coloured ones can be cooked at oven temperatures up to 220oC.

OUR RANGE

Hand Twine

Ideal for the butchers market, our hand twine is made from rayon* and extremely strong. Each roll is supplied on blue plastic cores, and individually shrink wrapped for hygiene purposes.

Name	Colour	Breaking Strain (KG)	Bobbin Weight (grams)	Approx Bobbin Length
Rayon No 104	White	30	500	600m
Rayon No 6	White	35	500	250m
Rayon No 5	White	45	500	250m
Soft No 5	White	27	500	300m
Rayon No 4	White	65	500	180m
Green/Red/White	Green/Red/White	35	500	270m
Red/White	Red/White	35	500	270m
Blue/White	Blue/White	35	500	270m
Green/White	Green/White	35	500	270m

*Soft No 5 is made from a combination of food grade polyester and cotton.

Notes:

OUR RANGE

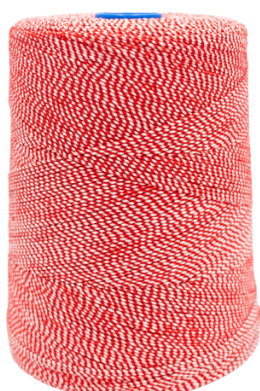

Elastic Twine

Elastic Machine Twine is designed to be used on all automatic tying machines including Siebeck, Tom, Pakseal and Weinert. Made from the highest specification food grade pol-yester and food grade natural latex rubber, we have used the latest winding technology to create a world beating twine that is oven safe up to 220°C.

Name	Colour	Bobbin Weight	Approximate Stretched Length	Approximate Stretched Length per KG
Elastic Twine	White Black/White Blue/White Green/White Red/White	760	1390m	1900m
